

COMMERCIAL STRATEGIC ENERGY MANAGEMENT

*Lower Costs and Level Up
Your Business*

Participate in up to a six-year journey to elevate your business's strategic energy management (SEM) practices with trainings and onsite activities at no cost. Earn cash incentives for applying energy-saving practices and passing program milestones – all while sustainably lowering operating costs.

RECEIVE CASH INCENTIVES

ENERGY SAVINGS

\$0.05/kWh and \$0.21/therm for measured savings
Annually for up to 6 years

MILESTONES

\$1,000 per SEM milestone completed
Up to twice a year for 6 years

WHO IS ELIGIBLE?

Commercial, Institutional and Public segments including, but not limited to:

- Higher Education
- Grocery
- Hospital / Healthcare
- K-12 Schools
- Office
- Commercial Multifamily Buildings
- Government
- Warehouse
- Lodging

BENEFITS OF ENROLLING

- **Reduce your operating costs** through learning how to identify and implement low-cost and no-cost energy saving opportunities.
- **Get a dedicated energy coach** who will guide you through creating energy goals, strengthen your operating procedures, enlisting a team, and amplifying the positive impacts of your efforts.
- **Expand your impact** with access to a team of energy efficiency and change management professionals to help you meet your organization's energy goals.
- **Build resiliency** for your organization by creating an action plan that you can execute, measure impacts and replicate across your organization.
- **Receive technical support** through assisted site walkthroughs to better understand and manage your energy systems.
- **Learn alongside peers** in your industry in a cohort setting and in paired coaching calls

HOW DOES IT WORK?

Plan

Work with your Energy Coach to assess energy consumption, set goals, and identify and implement energy saving opportunities.

Attend Workshops

Join your cohort peers in collaborative workshops to learn about energy saving best practices from our team of energy experts.

Engage Staff & Occupants

Build an energy team and engage building occupants to optimize energy savings and earn cash incentives.

Track Progress

Monitor energy performance with a customized Energy Model created for your buildings to meet your goals.

Save \$ and Repeat!

Report and reflect on your results annually, receive cash incentives for your efforts, and repeat!
